

LETTER OF RECOMMENDATION

Date: 31st March 2018

To whomsoever it may concern,

It's my pleasure to provide this letter of recommendation for Mr. Pranav Karmalkar. As Pranav's sole manager at Webwise Global, I've worked closely with him over the past one year two months. Pranav was an intern for a period of four months, after that he joined as a web developer and worked for ten months. Pranav showed excellent analytical and problem solving skills. On a personal level, Pranav is a curious, passionate and quick learner, all qualities that have served him well in his role as web developer.

Pranav even though being just graduated took forward a large project which needed exploring lots of uncharted territories. He took forward the challenge, and completed it. He was even incharge of collecting the requirements and designing the basic architecture. He worked on various new technologies like AngularJS, MongoDB and CSS-Bootstrap. Right from designing the UI to designing the backend, Pranav did it all. His passion to solve problems overshadows his lack of experience.

Pranav even has good communication skills. He represented the firm in business conferences. And was incharge of collecting requirements from clients for all the projects he worked on. He even maintained good relations with all his colleagues and was a good team player.

Finally, Pranav has proven himself to be a strong cultural fit here at WebWise Global. Pranav has worked on more than seven projects, and numerous small projects. He's always ready to lend a helping hand to his teammates and contributes during brainstorming sessions and meetings while designing architecture, deciding timelines and designing UI. Outside of official events, Pranav regularly hits the gym and is an avid adventure biker. Please feel free to contact me at hari@webwiseglobal.com with any other questions. Thank you for your time.

Sincerely,

Harikollareddy
